PROFESSIONAL EXPERIENCE

Front End Web Developer and Designer-Lead Marvels (2021-Current)

Collaborated with cross-functional teams to handle front-end web coding for a variety of client projects, delivering high-quality websites within agreed timelines. Successfully mentored junior developers, providing guidance on best practices, coding standards, and development tools, resulting in enhanced team productivity. Proactively identified and implemented process improvement opportunities, optimizing the agency's web development workflow. Conducted regular updates and improvements to existing websites, addressing client feedback and ensuring websites remained up-to-date with the latest design and functionality trends.

Graphic Web Designer-Epic Marketers (2020-2021)

Demonstrated a strong sense of typography, illustration, and visual composition to create exceptional web designs that align with clients' branding and marketing strategies. Utilized industry-leading web design and prototyping tools, including Figma, Adobe XD, InVision, Adobe Creative Cloud (Photoshop & Illustrator), and Miro, to produce high-fidelity design comps and interactive prototypes for client presentations and implementation. Actively participated in creative brainstorming and planning discussions, asking the right questions and providing valuable input to deliver the best creative output while adhering to project timelines and client expectations. Contributed to the development of digital content, including websites, microsites, landing pages, and newsletters, by collaborating with clients, engineering, marketing, and product teams, ensuring seamless execution of design projects.
